- T44 R10 W5: Section 29; PNG in the Cardium
- T43 R9W5: Section 17; PNG in the Cardium

**Description:**

Freehold Mineral Rights

This O'Chiese Energy prospect consists of five 100% WI high quality Cardium sections on the O'Chiese First Nation (OCFN). To date, over 70 Cardium wells have been drilled on the OCFN Lands by various industry players.

O'Chiese Energy is making this opportunity available on a non-exclusive basis. Preference will be given to those parties which provide a combination of cash and multi-well commitments, favorable earning terms and an expedited timeframe within which to earn.
